

making every day's life extraordinary

Development

At this moment Pim van den Akker is working on his fourth book. Just like his previous books this is going to be a special book. Imagine, you get a cart Blanc; you can design anything you want. How far would you go? Where does it end?

Pim's vision

The pressure is off. Suddenly it is quite. At least that's how it feels after four hectic but successful months in the USA and after organizing the events. Time to look back. Stand still at all the developments. And then? Then we will run towards our next challenge, full of energy like a child to a candy store. I see a lot... and I want a lot. Hope you will join me in running towards the new.

Rain at Beekkestijn

Little sun and loads of rain at the estate fair Beekkestijn (Formerly known as Home & Garden Fair). The reactions were overwhelming, the visitors were stunned and surprised.

New product

The new designs of Pimdesigned are fat, round and very approachable. Birch wood with a variety of lacquer finish possibilities.

An honest and funny lamp to hang above the table or on the wall.
