

Making every day's life extraordinary

New product

A new design form Pimdesigned. An elegant egg holder, that offers place for 14 eggs.

Executed in metal and synthetic material. Price is on appeal.

Floral Movement 2007

This year the floral event will take place again in Nieuwegein. Together with VBW and Peter van der Sluis, Pimdesigned is working hard to design and shape the event. The theme stays a secret for now but start to mark the dates in your agenda; October 28, 29 and 30. For more information check; www.floralmovement.nl

Pims vision

A difficult time, an exhausting period, it happens to everybody. A struggle with yourself and your expectations. What I do when it happens to me? Stand still, experience the situation and go past it, hold on to the beauty of it and learn from the experience.

Inspiration

An apple or applejus? Seeing possibilities in everything, experiencing is a joy. Every time it brings a smile to my face.

Does designing become more important then flowers? A question I get a lot. And the answer?

Absolutely not, the floral art gives me the same energy it has always given me. I want reach with my designs the same level as with my floral art, that it moves and inspires other people!
